

Research & Development

Why choose R&D at P&G?

- ✓ Consistent investment in innovation – more than our competitors
- ✓ Depth and breadth of technology
- ✓ Globally dispersed collaborative teams in 24 state of the art technical centers
- ✓ Opportunities to apply science and engineering to a vast array of consumer relevant products

Roles in R&D

Define the need

Then Deliver

*What are
consumer needs,
problems to solve?*

*What's the best
technology, innovation?*

*What's the
optimal, new
process?*

Consumer

**Product
Research**

**Technology /
Product
Development**

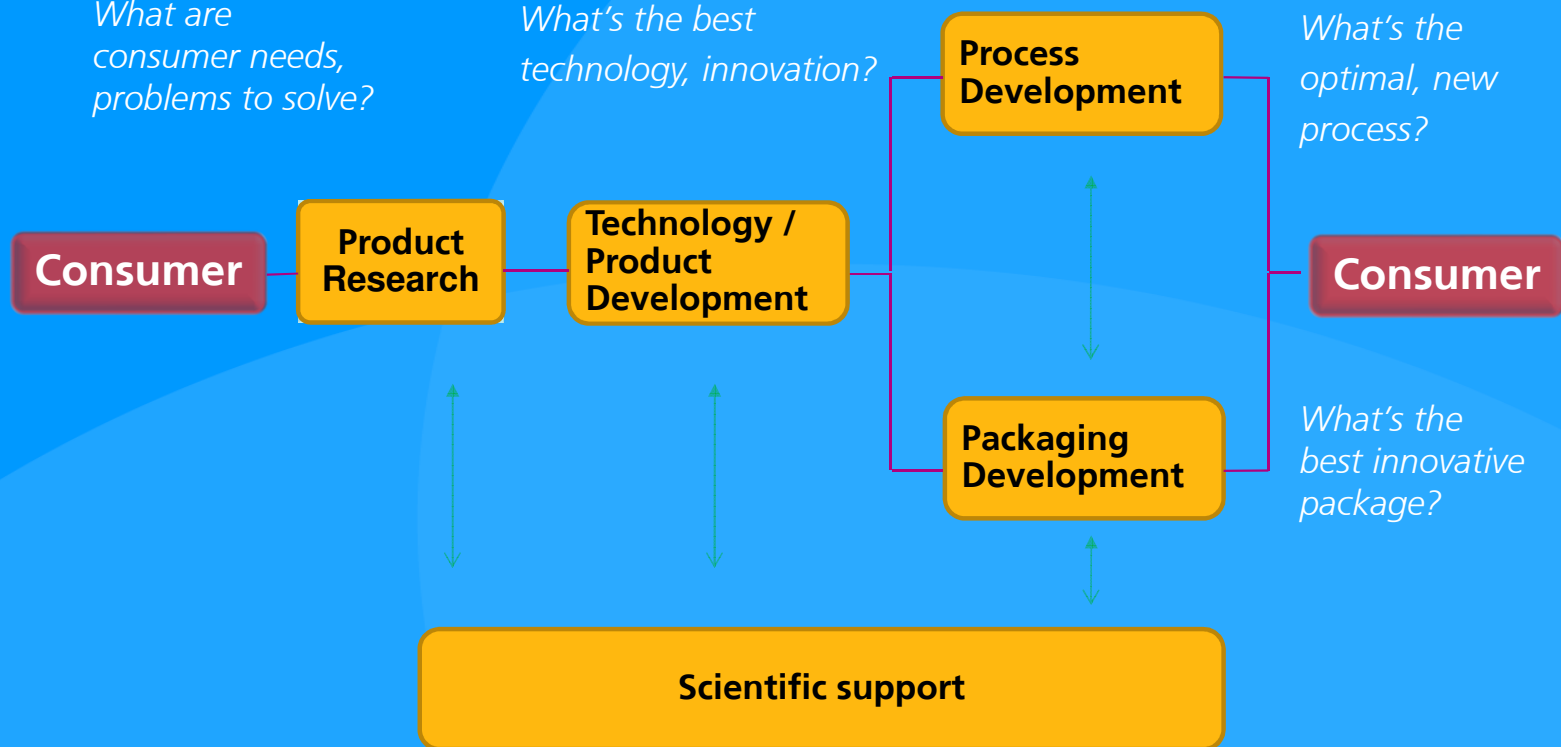

**Process
Development**

Consumer

**Packaging
Development**

*What's the
best innovative
package?*

Scientific support

Who are we looking for

For Associate Researcher

Science or Engineering graduates holding a bachelor degree.

For Summer Internship

Science or Engineering master student (studenti della Laurea Magistrale) in the 4th year

For PhD seminar

Science or Engineering Ph.D. students in the ultimate or penultimate year

R&D Researcher at P&G

Are you curious about the chemistry and technology behind our products? Do you want to make an impact on products that affect consumers around the world?

Then apply today to learn more about the opportunities for you at P&G!

As a Researcher, you will:

- Perform established test procedures in a lab, a pilot plant or with consumers to test new hypotheses, new product formulas or new product designs
- Generate and summarize experimental data for review and interpretation
- Communicate results to your manager and other team members, making special note of unexpected observations.

R&D summer Internship

- Valuable hands-on work experience, in a Global company.
- Accountability and responsibility for your project from day 1, developing personal leadership potential
- Best-in-Class Training to develop professional skills on communication, presentation, interpersonal relationships, etc..
- Opportunities for collaboration inside and outside the Company.

We offer:

- Internships for a period of 10 -12 weeks (and longer) mainly in the summer period in in one of our WE Innovation Centres (UK, Germany, Belgium)

R&D European PhD Seminar

Experience the innovative world of our R&D Organisation.

Learn what the typical day of a Scientist/ Engineer looks like.

Talk with our R&D top managers and Technologists about their jobs, scientific research and programmes in P&G

The emphasis is on active participation

The seminar

The seminar is held in any of our European Tech Centers around Easter and includes a visit to one of our Centres.

We offer:

- A unique experience to a limited number of 20 students.
- Accommodation, meals and travel to and from the seminar are paid by P&G.
