INDUSTRIAL BIOTECHNOLOGY DAY

December 14, 2018

**Complesso Universitario di
Monte Sant'Angelo
*Sala Azzurra***

The event has been organised by the
«Industrial Biotechnology Day» Committee:

Prof. Renata Piccoli

Prof. Viola Calabrò

Prof. Giovanni Ianniruberto

Dr. Alessandra Piscitelli

www.biotechnologieindustriali.unina.it

Biotechnologie Industriali Federico II

The Industrial Biotechnologist is an emerging figure in the professional world as an expert of biosystems for the production of good and services of interest for the modern society.

Graduates in Industrial Biotechnology are versatile, as it is proved by the wide range of industrial areas where they find a job, as well as by their success within Italian and international research centres.

This event aims at celebrating the professional success of our graduates and, at the same time, at triggering a deeper professionalization of our students.

Program

Introduction: Prof. Antonio Marzocchella

Course Coordinator

10.30-11.00

Welcome

Prof. Piero Salatino

President of the Polytechnic and Basic Science School

Prof. Rosa Lanzetta

Director of the Department of Chemical Sciences

11.00-12.15

The work experience of Industrial Biotechnology Graduates

Dott.ssa Emma Mazzei

Clever BioScience

Dott.ssa Rosa Gaglione

EIT Health, InnoStar, Smart Up Lab -Univ. Federico II

PhD in Industrial Biotechnology

Dott.ssa Daria M. Monti

12.15-13.00

Awards to BSc and MSc Graduates in Industrial Biotechnology 2016/17

Prof. Viola Calabrò

Graduation Award Committee

13.00

BUFFET
