

THE 8TH INTERCOLLEGIATE BIOTECHNOLOGY SYMPOSIUM "Symbioza"

Organised by: **Warsaw Society of Biotechnology**

symbioza
Warsaw Society
of Biotechnology

17-19th of May 2019

**The Faculty of Mathematics and Information Science
Warsaw University of Technology
Poland**

The conference:

Intercollegiate Biotechnology Symposium "Symbioza" is the main project of Warsaw Society of Biotechnology aiming to popularise biotechnology among young, ambitious students. IBS is a great opportunity to share your scientific achievements publicly at seminars or at poster sessions. In a given category, posters as well as presentations are evaluated and the best ones are rewarded with interesting prizes.

Furthermore, during the conference you will be able to take part in lectures led by distinguished scientists coming from the most prestigious academic centers around Poland and Europe eager to present their work on various aspects of life sciences.

If it is still not enough, we warmly encourage you to participate in the social program which is a great way to meet the rest of participants and experience Warsaw city.

The conference is structured over three days with:

- Plenary sessions featuring keynote speakers

- Poster presentations

- Organised social activities

Warsaw, 17-19th of May 2019

Like previous editions 8th IBS "Symbioza"
is focused on bio-related topics including:

- Biotechnology
- Biology
- Bioengineering
- Bioinformatics
- Chemistry
- Microbiology
- Genetics
- Chemical engineering
- Medicine
- Pharmacy
- Environmental studies
